

## ***Little But Mighty Manual Swing-Away***

### **Insta Design Advantages**

**Superior and Even Pressure Across the Platen** The pressure source is strategically placed over the center of the upper platen and uses struts to drive that pressure out to all corners. The result is an even and heavy duty distribution of pressure that is unmatched by other heat presses in the market today.

**Cast-In Tubular Heating Element** The tubular heating element is cast into the aluminum upper platen, heating the metal from within. The element is coiled throughout the upper platen to provide a reliable and even circulation of heat out to all corners.

### **Solid as a Rock Construction**

**Best Possible Return on Your Investment** When you step up to an Insta you get a press that will continue to perform, year after year after year.

### **Working Space Dimensions**

- Depth: 23.5" (59.69 cm)
- Width: 20" (50.8 cm)
- Height: 15.25" (38.74 cm)
- Power: 120 volt - 1200 Watts, 10.0 Amps  
220 volt - 1800 Watts, 7.8 Amps
- Shipping Weight: 79 lbs. (35.6 kilos)

### **Product Features:**

- Power your new business with an Insta!
- Best return on investment for an affordable entry level press
- 13" x 13" platen (33.02 x 33.02 cm)
- Swing away upper platen = unobstructed access to lower platen
- Adjustable gap opening of 2.75" to print up to .375" thick substrates

### **Operator Benefits**

#### **Quiet and Compact**

#### **Lightweight Design**

#### **Pressure Adjustment Crank**
