

## Reflects Fashion & Function.

Enhance safety without compromising style with our 3M Reflective heat transfer. This highly reflective transfer allows you to add a decorative & functional element to occupational work wear, consumer active wear, gym bags, hats, wristbands, headbands and other performance fabrics. Our 3M Reflective heat transfer adds exceptional visibility to garments with its ability to reflect light up to 500 feet away and its ANSI 1 compliance for angled reflectivity. 3M Reflective meets the necessary requirements for most government programs.

## Increase Safety with a Simple Process.

Adding safety feature to your garment is simple with this Reflective heat transfer. Send us your logo or decorative graphic and we will send you or your contractor the finished transfers, ready to be applied with a quality heat press machine. Excess transfers can be shelved and applied on an as-needed basis and application is quick & easy.

### Product Features

- 500 candlepower
- ANSI 1° variance
- Maintains reflective intensity in rain & after washings
- Available in silver only

### Application Instructions:

- Time: 15 - 20 seconds
- Temperature: 330 ° - 350°F / 166° - 177°C
- Pressure: 30 - 40 lbs
- Peel Cold
- Pre-heat materials / Use Teflon or parchment window for heat press application if needed.

### Recommended Fabrics:

*Apparel:*

- Store away from direct heat, sunlight and high humidity.
- Shelf life: one year from date of shipment.

### Minimum Line Weights:

- Positive line weight: 2.5 pts.
- Negative line weight: 2.5 pts.

# Heat Transfer Limited Warranty

8.2021

All statements, technical information and recommendations concerning products or samples provided by Insta are based upon tests believed to be reliable but do not constitute a guarantee or warranty.

Since the conditions under which Insta's heat transfer products may be applied to garments and other products are beyond its control Insta assumes no liability for the results obtained during and from transfer application process to the garment fabric or otherwise. It is the customers responsibility to independently determine, prior to use, the suitability, finish and wash of these products for their specific applications and that the end product laundered with soaps containing bleach, or harsh detergents with bleach or bleach particles. No warranty, expressed or implied is given. Insta's liability is limited only to the purchase price of the heat transfers.

The limited warranty is further subject to the condition that the Customer notifies Insta of any defect in material or workmanship within thirty (30) days of the date of delivery. Shelf Life of transfers is one year from date of shipment, unless otherwise specified in writing. Transfers should be stored in the original packaging and in a cool, dry area away from direct sunlight at a temperature no higher than 75F (24C). The customer is financially responsible for third party testing performed by an independent lab.
