

Short Run. Full Capability.

Our Digital heat transfer is the perfect solution for accommodating short runs and samples. This remarkable transfer captures the full-color beauty of your graphics and photographic images - all at an affordable cost. Digital heat transfers are highly stretchable, incredibly opaque on all garments colors, soft to the touch and CPSIA compliant for Phthalates & Lead.

Extreme Versatility.

Our Digital heat transfer is adaptable to virtually any fabric. This multi-purpose heat transfer will adhere to some of the most difficult-to-apply-to materials with unyielding durability and resilience. Digital transfers are a terrific method of branding for schools, small businesses, clubs, special events and on promotional items and "hard-to-apply" substrates.

- Peel Hot
- Pre-heat materials

Minimum Line Weights:

- Positive line weight: 2 pts.
- Negative line weight: 2 pts.

Heat Transfer Storage:

- Heat transfers should be stored in original packaging until ready for use.
- Store away from direct heat, sunlight and high humidity.
- Shelf life: one year from date of shipment.

Heat Transfer Limited Warranty

All statements, technical information and recommendations concerning products or samples provided by Insta are based upon tests believed to be reliable but do not constitute a guarantee or warranty.

Since the conditions under which Insta's heat transfer products may be applied to garments and other products are beyond its control Insta assumes no liability for the results obtained during and from transfer application process to the garment fabric or otherwise. It is the customers responsibility to independently determine, prior to use, the suitability, finish and wash of these products for their specific applications and that the end product laundered with soaps containing bleach, or harsh detergents with bleach or bleach particles. No warranty, expressed or implied is given. Insta's liability is limited only to the purchase price of the heat transfers.

The limited warranty is further subject to the condition that the Customer notifies Insta of any defect in material or workmanship within thirty (30) days of the date of delivery. Shelf Life of transfers is one year from date of shipment, unless otherwise specified in writing. Transfers should be stored in the original packaging and in a cool, dry area away from direct sunlight at a temperature no higher than 75F (24C). The customer is financially responsible for third party testing performed by an independent lab.
